A MARVELLOUS REMEDY For a Marvellous Age!

HOLLOWAY'S OINTMENT!!

The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies.—Through these this Ointment when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, Disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness.—This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas,

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Piles	Sprains
Burns,	Rheumatism	Scalds
Chapped Hands	Salt Rheum	Swelled Glands
Chilblains	Skin Diseases	Stiff Joints
Fistulas	Sore Legs	Ulcers
Gout	Sore Breasts	Venereal Sores
Lumbago	Sore Heads	Wounds of all kinds.
Mercurial Eruptions	Sore Throats	
	Sores of all kinds	

**Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts, 62½ cents, and $1 each.

☞ There is a considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each Pot.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting **Bounty Lands** to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have so served and have received 40 acres.

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance as above is made to his **Widow**, or if no Widow, to the Minor Children.

Service in the **Revolution**—in the **War of 1812**—and in all the **Indian Wars**, is provided for by said Act.

And all who served the above period in the **drafted Militia of the State of Maine**, in the year 1839, in what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period, and whose services have been paid for by the United States, and their Widows and Minor Children.

The subscriber is prepared to **receive and prosecute all claims** arising under said Act, with promptness and dispatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature.

He will, if preferred, **Purchase the Land Warrants** at fair rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declarations, with suitable directions, which may be executed without the parties leaving their homes.

To secure the receipt of a Warrant early, apply early.

Counsellor at Law, and Agent for Pensioners and Bounty Land Claimants.

To Holders of LAND WARRANTS!!

John L. Hodsdon,

DOW'S BLOCK, Hammond Street, Bangor, would call the attention of those who may have *LAND WARRANTS* to sell, to the fact that he has orders for large numbers of Land Warrants from parties in the West, who authorize him to pay for the same the highest market value in CASH. Any person having a Warrant may therefore be assured that he can obtain from Mr. H. the most favorable price for it.

To those who desire to

Locate their Warrants,

he would further say that he has skilled and careful agents in the States of

WISCONSIN AND IOWA,

and in the Territory of Minnesota, who will locate any Warrants on the most desirable lands, without advance pay.

This Day Published

EDITH,

The Quaker's Daughter.

A TALE OF PURITAN TIMES.

BY ONE OF HER DESCENDANTS.

12 mo. cloth. Price $1.25.

A more charming tale has rarely made its appearance in any country. The scene is laid in Boston, at the time of the religious persecution of the Quakers by the Puritans, and this circumstance adds a very great interest to a tale which does not require any such fictitious aid; but whose intrinsic qualities are sufficient to fasten the readers attention, and deeply move his sympathies, as well as enforce an admirable moral lesson.

We add a paragraph from the book itself:—

"The writer is aware that the early history of the Quakers in New England fills a page in her records which the descendants of our Puritan ancestors would gladly seal forever from the eyes of men. The [illegible] of these occurrences is yet too recent for justice to either party to be awarded. The consciousness of a cruel intolerance on the one hand, and the remembrance of wrong on the other, are [illegible] fresh in the minds of their descendants, [illegible] must pass away before either can regard [illegible] other with impartiality. But our historians [illegible] should remember that the blot is only [illegible] deeper through attempts to excuse these [illegible] of cruelty by false representations of the [illegible], and it becomes the duty of every faithful representative of those times to depict their characters with fairness, and to do justice to the motives that influenced their conduct.

"We trust that the time is not far distant when the spirit that still characterizes New England men, especially her clergy, will give place to a more [illegible] feeling of Christian brotherhood. Let it be remembered that the time was, when the [illegible] stood alone against all [illegible] that are now [illegible] by the majority, and if their peculiarities are fast disappearing from our sight, their principles remain.

GREAT American and Foreign Office,

—FOR—

Securing Patents for Inventions.

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

R. H. EDDY,

No. 76 State Street, opposite Kilby St.,
BOSTON.

IMPORTANT INFORMATION TO INVENTORS.—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837,) determined to present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty, as paid back by others*,) will be remitted by him in case of failure to obtain a patent, and the withdrawal, through him, within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries, prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of the claims of any patent furnished for *one dollar*. Assignments recorded at Washington. Patents secured in Great Britain, France, and other foreign countries, through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents.*

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office,

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"AUGUST, 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

THE AMERICAN NATIONAL COUNCIL. The "Central" Americans as they are called, comprising most of the New York, N. Jersey, and Delaware delegations, and some members from Massachusetts and other Northern States, who, on the 20th gave the victory to the North on the question of the repeal of the Twelfth Section, backed down the next day, and gave a triumph to the South, by consenting to annul the whole national platform of June; the object being to substitute for it a new platform, in which an attempt to dodge the whole slavery question is made with a good degree of success. The substitute was driven through under the previous question. The Northern Americans voted against it—the central and most of the Southern delegates voted for it, although a few ultra-South members voted against it.

The new platform was then adopted.

The following are the only sections of the new platform that can be suspected of referring to the slavery question:

6. The unqualified recognition and maintenance of the reserved rights of the several States, and the cultivation of harmony and fraternal good-will between the citizens of the several States—and, to this end, non-interference by Congress with questions appertaining solely to the individual States, and non-intervention by each State with the affairs of any other State.

7. The recognition of the rights of native-born and naturalized citizens of the United States permanently residing in any Territory thereof, to frame their Constitution and Laws, to regulate their domestic and social affairs in their own mode, subject only to the provisions of the Federal Constitution—with the right of admission into the Union whenever they have the requisite population for one representative in Congress—*provided always* that none but those who are citizens of the United States under the Constitution and Laws thereof, and who have a fixed residence in any such Territory, ought to participate in the formation of the Constitution, or in the enactment of laws for said Territory or State.

Elsewhere in the new platform there is much said about nationality.

The substitute platform was passed by a vote of yeas 108, to nays 77. Mr. Robinson of Mass. voted yes, making five yeas to seven nays for Massachusetts. Mr. Booth of Conn. came in and voted yes and afterwards changed to no. The Ohio and Iowa men pronounce the party dead and dissolved. Many from the North and South pronounced the Council to be without authority to make a platform for the nominating convention.

There was great confusion and much recrimination throughout the evening.

The Tribune's correspondent says:

The adoption of the new platform has enlivened the Nationals, and they will press a nomination pretty strongly. Law has the most friends of any single person, but Fillmore and Erastus Brooks have their backers. The North will probably oppose a nomination, and if she is made to do so then the bolt which did not come off on the platform will probably take place. The Northern side was badly engineered in the fight on the platform. The New England and Ohio delegates had agreed together for a single proposition, to repeal the Twelfth Section, but Ely [illegible] water betrayed them and put the North in a false position, from which it never extricated itself.

Maine does not appear to be represented either in the Council or the Convention.

The Council adjourned to meet in New York next June.

THE REPUBLICAN NATIONAL CONVENTION, which has just been held at Pittsburg, and which adjourned on Saturday evening, appears to have been very largely attended, indeed, and to have far exceeded any expectations which were formed of such a meeting. It was called only two or three weeks since, and being simply for consultation preparatory to a nominating Convention, it was believed there would not be many present. The Republican spirit, however, is so thoroughly aroused that the whole North, and no small portion of the South appears to have been represented, and many sections largely represented. Gentlemen appear to have been present from Maryland, Virginia, Kentucky, Missouri and the District of Columbia—not many of course, but enough to show that there are thoughtful men at the South, who perceive that the only true and safe "nationality" in this Republic is the nationality of freedom and not of slavery, and that if the North only stands up firmly, manfully, and constitutionally in resistance of the spread of an institution which is full only of evil to the *whole* country, there will not be wanting a patriotic and freedom-loving party at the South to act in concert with the Republicanism of the North.

The proceedings of the Pittsburg Republican Convention appear to have been entirely harmonious, hopeful, and enthusiastic,—while the National American Convention, in session at the same time at Philadelphia, was torn with fierce dissensions on the slavery question, and the party threatened with utter dissolution. And just such would be the condition of a National Democratic or a National Whig Convention, unless it should bow to the mandates of the South, or consent at least to ignore the slavery question, and permit the institution to be freely extended.

We have as yet only brief telegraphic reports of the proceedings at Pittsburg; but the mails will inform us more fully in a day or two.

THE WHIG of last Saturday proposed its one thousandth question, which brings down our patience—Solomon said "bray a fool in a mortar with a pestle" &c.—*Journal.*

We trust our neighbor will keep as cool as possible under the operation. It is true, that being "brayed in a mortar" is not pleasant or comfortable; but political duty requires us to grind him a little occasionally—albeit the truth is hard to be expressed.

Our streets were filled with sleighs and teams on Monday—giving evidence that the roads are again passable.

The weather has been mild for a day or two and the snow thawing freely.

ERNEST LINWOOD, a Novel. By Mrs. Caroline Lee Hentz. Boston: John P. Jewett & Co. 1856.

The last and most brilliant work of this gifted authoress. It is the heart record of the life of a truthful, loving, enthusiastic and sensitive woman, whose affections are strongly bound to a jealous but otherwise noble and generous husband. The book is written with a fervency and strength of genius and feeling, such as only a true woman could impart. The narrative is auto-biographical. The heroine, Gabriella Lee, who marries Ernest Linwood, tells her own story, the plot of which has an engrossing interest.

We have said this is the last work of this accomplished authoress. The sad intelligence of her death reached us simultaneously with the reception of the book from her publishers. Mrs. Caroline Lee Hentz was born in Lancaster, Mass., and was the daughter of Gen. John Whiting of the U. S. Army. Her brother Gen. Henry Whiting was an aid to Gen. Taylor in the Mexican War. Her husband was Prof. N. M. Hentz. She has resided at different times at Chapel Hill, North Carolina, at Cincinnati, at Florence, Ala., and at Tuscaloosa. She died at Mariana, Florida, on the 12th inst., after an illness of only five days. Her publishers, Messrs. Jewett & Co., of Boston, say of her, in a note to the Boston Transcript:

"This elegant woman, with a culture as rare as are her native powers, second probably to no female writer in America in the brilliancy of her diction and the splendid flashes of genius which adorn her pages, this idol of Southern literary circles, has suddenly, in the prime of womanhood, been called to a higher sphere. The hearts of thousands will be saddened by the unexpected intelligence. To us, her publishers, it comes with a peculiar force, having reached us, on the very day that we had completed the task of her new and beautiful, and as little did we think it, her last literary effort. Ernest Linwood will be read by hundreds of thousands of admirers of this gifted and lamented authoress, as the '*last notes of the dying swan.*' Her closing chapter, like the Requiem of Mozart, seems almost prophetic of her own speedy dissolution."

The other prominent articles are Sketches of the Juniata, original accounts of Commodore Perry's Expedition to Japan, illustrated by a portrait of the Commodore and by many views, a spirited description of the Whale Fishery, and some Passages of Eastern Travel. It is one of the most interesting numbers issued for many months.

THE EXPECTED FRENCH HEIR.—The Paris correspondent of the New York Times says, the accouchement of the Empress will take place in about a month, when the personnel of the Tuileries is to undergo important modifications; there will be a perfect shower of new titles; some changes are anticipated in the Senatus Consultus; great fetes will be ordered at the expense of the State; a political amnesty will be declared, and the joy of the people will be great."

SAFETY.—It is stated that E. K. Collins has issued an order to the commanders of each of his line of steamships, that they shall not cross the Newfoundland Banks between this time and the first of August next, at a latitude north of 43 degrees, so as to avoid the chance of meeting with ice.

WASHINGTON RUMORS. A Washington correspondent says:—

NEW YORK, *Feb.* 21.—The feature of the market to-day was the sale of nearly 10,000 bales of Cotton, at very full prices; the mercantile letters and orders from Liverpool and Manchester fully confirming the very favorable state of the English Cotton Trade reported by telegraph and circular. Orleans middling lists were taken at 10½ cents; Upland middling at 10½ cents.

We understand the trade on the other side is almost unanimous in favor of an early Peace. One or two leading houses at Liverpool, however, still express some doubt of the good intention of Russia.

Meeting of the Young Men's Bible Society.

The meeting which was held at the Central Church on Sunday evening was attended by a large and interested audience.

The exercises were opened with an anthem by the choir. Reading of the Scriptures by Rev. J. H. Allen. Prayer by Prof. Harris. Hymn by the Choir. Address by Rev. N. E. Cornwell. Hymn by the Choir. Report of the Secretary, Hon. J. T. K. Hayward. Address by Rev. N. Woodhull, Agent of the Am. Bible Society. Collection, amounting to $64. Select piece by the Choir. Benediction by Rev. Mr. Cornwall.

The following is the Report of the Secretary:

THIRTEENTH ANNUAL REPORT OF THE SECRETARY OF THE BANGOR YOUNG MEN'S BIBLE SOCIETY.—The Society, whose thirteenth anniversary we celebrate this evening, has for its object to place the Sacred Scriptures in the possession of every inhabitant of our country. This work it accomplishes by sending colporteurs, who visit from house to house, offering the Bible to all who will purchase it, and gratuitously supplying the destitute, if unable to supply themselves.

During the past year, the only person thus employed by the Society is Stephen Smith of Garland, who has explored wholly or in part, the towns of Bradford, Alton, Hudson, Carmel, North Newport and Etna.

Of 701 families visited, 72 were found destitute,—some of these were Irish Catholics, unable to read, and some were unwilling to receive a Protestant Bible. Mr. Smith writes:

"One young family had lived six years without a Bible.

Except in a few instances, I have been very cordially received and hospitably entertained. Many hearts have been caused to rejoice on receiving the precious Word, and many young countenances to brighten at the gift of a New Testament."

Mr. Smith has been previously employed by the Society, and has proved himself a faithful laborer. He passes no family, and is careful to search out those in bye places, remote from the villages, and has repeatedly found in such locations those who had been omitted by former colporteurs.

The past year, he has distributed by sale 100 Bibles and 40 Testaments and Psalms and 352 Testaments; as gratuities 57 Bibles and 371 Testaments. There has also been distributed in other ways 216 Bibles, 194 Testaments and Psalms, and 1130 Testaments,—of which 23 Bibles and 40 Testaments were distributed, gratuitously, in this city. The whole number of volumes circulated by the Society, the past year is 2259.

It has been customary, each year, to ask a contribution from the several Religious Societies of the city. This was omitted the last year, consequently the receipts have been small. They have been as follows:

Collection at the Annual Meeting	$75 65
Collection at a Meeting of the Methodist Conference, to constitute Rev. Messrs. R. B. Curtis and J. G. Prince Life Members of the Am. Bible Society	66 50
From Congregational Church at Hampden	6 66
From Congregational Church at Amherst	10 32
Other sources, including Life and Annual Members	7 35
From sale of Books	475 50
Making total receipts,	$641 98

The expenditures have been:

To Am. Bible Society, for Books	$389 68
To " " " Donation	78 82
Amount of Bibles Donated	57 18
Freight Boxes and Incidental expenses	23 91
Plate for Life Members and Printing	25 00
Expenses of S. Smith 42 days, including horse and wagon	65 22
Bibles to Life Members charged by Am. Bible Society	21 40
Commissions to Depository	39 96
	$699 16

The value of Bibles and Testaments in the Depository at the beginning of the year	$895 10
Received during the year	408 04
Total	$1303 14
Deduct amount disposed of during the year	532 68
and we have now on hand	$770 46
The amount due the Parent Society for Books is	$1175 11
From which deduct Books on hand leaves	$404 65

as the amount of deficiency in the funds of the Society. At least one-half this sum has been received for Life Memberships, and paid to the Parent Society as donations, for which, Bibles may be ordered for gratuitous distribution if deemed advisable.

Besides the principal Depository at Bangor, the Society has smaller Depots at Lincoln, and at Houlton and No. 11 in Aroostook County, for the more convenient supply of their respective neighborhoods.

In thus reviewing the year that is passed, I think all must be impressed by the fact that much less has been accomplished by the Society than the character of its members would lead us to expect, or the importance of its objects would demand.

On other points religionists may differ, but all receive the Bible as the greatest and best gift of God to man. It is the great central luminary of the moral world. Even infidels acknowledge its loftiness of thought, the wisdom of its maxims, and the purity of its morals. There are dark places around us which need the influence of its Heavenly light,—they exist even in our midst,—and while other Societies are receiving of us liberally, to send the Gospel to distant fields and to other lands, is it not due to the community where we dwell,—is it not due to the noble cause we espouse,—is it not due to ourselves, as the young men of Bangor, embracing the energy and enterprise of our goodly City, employed in a work where we all cheerfully unite, so to engage in this work that instead of a debt resting upon our Society, its Treasury shall be filled [illegible] to send forth light and gladness [illegible]

THE HERSEY & HALL LAND CLAIM. The Bangor Journal has attacked Gov. Morrill's administration for its action upon this claim, and in consequence has been served with the following letter from Mr. Hall, who is an opponent of Mr. Morrill, and a Straight Whig to boot. The letter speaks for itself.

To the Editors of the Bangor Journal:

MEDFORD, Mass., Feb. 20, 1856.

My attention has been called to an article in your paper of the 15th, respecting the doings in the Maine Legislature as regards the timber on four half townships (about 31,000 acres) agreed for by Gen. Hersey and myself with the Land Commissioners of Massachusetts.—As you do not appear to be well acquainted with the merits of the case, and Gen. Hersey being absent from Bangor, I propose giving you a short history of the whole matter, at the same time I would say that neither Gen. Hersey nor myself have any interest now in the land, having sold our whole interest sometime in January to other parties.

The facts are as follows: In March 1853, prior to the negotiation between the two States for the sale of the land, the Land Agent of Massachusetts, with the approval of the other Commissioners, made an agreement with Messrs. Hersey & Hall for the sale of timber on four townships of land. The price to be paid for two of the towns was agreed upon by the Land Agent of Massachusetts and ourselves—at the time we made the purchase. As we could not at that time agree as to the price of the other two towns, viz: L and M, it was agreed between us that the price should be fixed by the Land Agent of Maine; subsequently the price was named by Mr. Morrill, or at any rate he said what they were worth.

At the time the negotiation was pending between the two States, the agreement to sell the above land was made known to the Commissioners of Maine by the Commissioners of Massachusetts, and they were notified that the Commissioners of Massachusetts had given their assent to and approval of the same, and were bound to carry out the same. To further protect us, the following clause was put in the deed from Massachusetts to Maine, (by the Hon. Mr. Choate, Attorney General of Mass.) "Subject to all existing legal contracts and sales of timber heretofore made." Mr. Wright one of our Commissioners refused to sign the deed unless the above clause was inserted.—Mr. Choate told me afterwards that all the papers were correct, and that Maine would not for one moment refuse to acknowledge it. It was thought best by a majority of the Land Committee, and by ourselves to refer the whole matter to the Governor and Council, it having been said that Maine wanted L and M for settlers, and as it was thought that some compromise might be made between us and Maine. As regards those two towns, the legality of our claim there can be no dispute about, Massachusetts having as she sold us the timber, and Maine having bought the land subject to the sales of timber heretofore made.

You say the justice to an old friend enforced action on the part of Gov. Morrill's Council on the last day of their meeting. That surely cannot apply to me, for no man in New England could have been more against the political policy of Gov. Morrill's party than myself, being a liberal on the liquor question, and a Webster Whig politically.

Very respectfully yours,
D. C. HALL.

From Monday morning to Thursday night the cars have been on their way to Portland—four days in making ordinary five hours time. The Boston Traveller of Thursday afternoon says:

This track of the Eastern Railroad is now clear of snow as far as Portland. The trains commenced running with regularity this morning. Mr. Prescott, the Superintendent, has been on the road with the Eastern conductors, Messrs. Young and Cram, with Mr. Kenny, the freight agent, baggage masters and others since Tuesday without sleep. A gentleman measured a drift of snow on the track at North Hampton, which was 22 feet deep, all of which had to be shovelled out. For about a half mile near the same place it was drifted thirteen feet deep.

The Grand Trunk, and Penobscot and Portland cars, have never been more than twenty minutes behind time through the winter, except once, when they were detained forty minutes. This we attribute to several causes.—They have more power—and a wider gauge—a wiser division of their forces along the lines—and fences erected at all the weak points.—*Argus.*

DEATH OF CONRAD HEYER.—The oldest inhabitant is dead. The announcement is as follows by the Bath Tribune,

Died on the 19th instant, at Waldoboro', Conrad Heyer, at the advanced age of 106 years, 10 months and 9 days. His parents were from Germany, and he was the first child, of the white race, born in that town, in which he always continued to reside. Though of rather slender form, Mr. Heyer had great physical energies, with much power of enduring labor and fatigue. He possessed remarkable health, having never till this winter been confined a day by sickness. Mr. Heyer was from early life a respected and constant member of the German Lutheran Church. For three years, he served in the war of the Revolution, and was a pensioner. He voted at every Presidential election, since the establishment of our National Government. His employment was that of a farmer. For the last ten years, he attracted much attention, many strangers visited him, and always found him a source of much interest, not only as a relic of the past, but for the exactness of his memory, and the very clear accounts he loved to give of early occurrences within his own observation. His maxim of prudence and of propriety, deduced from his long observation of men, had weight with his neighbors. As he lived with mental powers wonderfully preserved, so he continued to hold the respect of his acquaintances, and the memory of his virtues and his wisdom will, for a long time, exert usefull influences in the circle where he was so well known.

BLACK KNOT.—This excrescence on the plum, if kept constantly cut off, has been found by good cultivators to give very little trouble, besides the vigilance required in watching for it. We have discovered that in every instance where the remedy has failed, it has either been left till the disease had first made considerable progress or else the knots had sometimes been allowed to remain for weeks or even months together before a thorough excision was made.—With good cultivation, to keep the trees thrifty, they will soon outgrow any amount of lopping they may receive; and as we have before observed, a solution of chloride of lime will destroy the poison of the disease where a wound has been made, and prevent its bursting out again. We make these remarks at the present time because, during the season of foliage, some of these excrescences often escape observation, and they should now all be removed, as they may be so easily seen—and prevent the circulation of the poison or disease through the sap.—*Country Gentleman.*

GROW MORE FRUIT.—"Consider," says a committee's report, "even here at home in Livingston county, how numerous is that class who are greater strangers to a *Seckel or Bartlett* pear, than they are to lemons and oranges of Cuba; and how many are longing for that which is beyond their reach, while at their very door the soil is lying idle for them to plant and cultivate a better variety of fruit than ever the tropics produced; and with the help of a good [illegible] every day in the year need the [illegible] variety of fruits."

An Ode to Snow.

IN TWO PARTS—PART FIRST.

Sole garment of the winter,
Thou art white!
Yes, whiter than than the overcoat
Of Horace,
And far more nappy;
And whiter than
The nightgown of somnambulist,
Or monomaniac,
Who yielding to the influence,
Of the congenial Satellite,
Harks for the "Music of the Spheres"
O'erhead, but hears not
The caterwauling tones
Of centrifugal Tomcats
Around him!

And verily the Millerites,
At the "witching hour"
Assembled in the thickly-settled
Cemetery,
And in the smoothly plaited drapery
Of their ascension robes,
Looking like ghosts
Just risen,
Or like a flock of sheep
Newly washed,
Were white
But Thou,
O! solitary remnant of the earth
Art whiter still,
And still as soft!

Bangor, Feby. 25.

A KNOWING HORSE.—"E. M.," of Belchertown, writes to the Amherst Express about a very intelligent horse, of which he is the owner. The following incident, among others, illustrates the matter.

"One day last week he was driven a few miles out of town, and on his return, sometime in the afternoon, was fed with meal and put feed as usual, but for his supper he had nothing but dry hay, which did not agree very well with his sense of right, after traveling twenty miles with a load, through snow-drifts. However he kept his thoughts to himself till we were out of the way for the night; then, sundering his rope in some way, he passed through the cow-stable, crossed the barn floor and the carriage room to the granary, at the further end of the barn, some forty feet, where he had often seen us get the meal for him; he there found two bags of meal, standing by the bin, tied up tight, but the top one being too heavy for his purpose, he threw it aside, and after examining the other bag which weighed between fifty and sixty pounds, he took it in his teeth, and carried it about twenty feet, to a clean spot on the barn floor. Finding it difficult to untie it, he cut a hole in the side and shook out about a peck of meal, and ate what he wished; and seeing the cow (the only companion he has these long winter nights) looking with a longing eye at his pile of meal, he took up the bag again, and carried it about ten feet further to her manger, and shook out some more meal for her. They were found in the morning feasting together."

"HOOP" ACCIDENT.—Hoops are dangerous in some places. Read and tremble. In New York, a day or two since, a full-rigged lady was walking up Broadway, when one of the hoops with which her circumambient were inflated, the ends of which had not been strongly secured together, suddenly broke loose, and flying back with great force, tore completely through the outer garments and struck a small boy, who was standing on the sidewalk about twenty feet from the lady. The small boy was taken home senseless; it is feared he will not recover. The *hoop* is already *recovered.*

A Maine Silver Gray paper urges the appointment of Whig delegates to attend a National Convention in Kentucky, to nominate a President. If there is to be such a Convention, it should be held in some State where there is a Whig Party. There is none in Kentucky. It has gone down into the "lower deeps" of Hindooism.—*Albany Journal.*

BASE AND COWARDLY.—We understand the Rummies of St. Stephen, under cover of night, are going about like prowling wolves destroying the property of those persons who have, and still are taking active measures to put down the sale of liquors, by breaking their windows, daubing their signs with tar and filth.—*Calais Advertiser.*

DEPUTY SHERIFF.—Clement M. Cobb, of Dover, has been appointed and commissioned by W. W. Harris, Esq., to be one of his Deputies.—*Dover Observer.*

Holloway's Pills have again triumphed over every other Medicine. Interesting Case. Emily Walters, aged 17, of Walnut street, Cincinnati, suffered much and often from sick headaches, tottering of the limbs, numbness of the whole body, and other symptoms which very much alarmed her and parents. The actual name and nature of the complaint puzzled every one, it bore such a variety of aspects, and consequently there were a variety of opinions on the subject. Three months ago the mother boldly went to work with Holloway's Pills, which very quickly performed their part, for in six weeks the young lady was in possession of the most robust health—after every advice and medicine had failed. They are an excellent remedy for young ladies entering into womanhood.

American Convention.

Fillmore nominated for the Presidency.

PHILADELPHIA, Feb. [illegible]

In the American Convention, Brownlow's motion to proceed to a nomination was passed, and balloting was about to commence, when Mr. Perkins of Conn. announced the secession of the delegation from that State. The Massachusetts delegation followed, together with that of Rhode Island and Ohio, and portions of Illinois, Iowa and Pennsylvania. One ballot was then had, resulting as follows: Fillmore 71, Law 27, Gerrit Davis 13, Judge McLean 7, Com. Stockton 8, John Bell 5, E. Brooks 2, K. Raynor 2, Campbell of Ohio 1, Ex-Gov. Johnson 1, John M. Clayton 1. Convention then adjourned to 3 o'clock.

The northern secessionists are holding a caucus at the Merchants' Hotel.

The Americans nominated Fillmore for President, and Andrew Jackson Donelson, Vice President.

The first ballot for a candidate for President, was an informal one, taken to ascertain the feeling of the Convention. It resulted as follows: For Millard Fillmore, Rhode Island 1, Indiana 1, Virginia 15, Tennessee 7, California [illegible], Delaware 2, Maryland [illegible], North Carolina 7, Louisiana 2, Missouri 4, Ohio 3, New York 8, Pennsylvania 9, Illinois 2,—total 71. For Geo. Law—Michigan 1, Wisconsin 1, Ohio 1, New York 16, Pennsylvania 1,—total [illegible]. For Judge McLean—Massachusetts 2, Rhode Island and Indiana 2, Ohio 1, Pennsylvania 1,—total 7. For Com. Stockton—Massachusetts 1, New Jersey 7,—total 8. For G. Davis—Kentucky [illegible], Pennsylvania 1. For John Bell—Massachusetts 5. For Johnston—Pennsylvania [illegible] fourteen votes were cast, but Johnston declared that he was not a candidate, and his friends changed their votes. For Erastus Brooks—New York 1. For Sam Houston—New York [illegible]. For Kenneth Raynor—Pennsylvania 1, Arkansas 1. For Campbell—Ohio 1. For Clayton—Delaware 1. Mississippi was represented by one delegate, who refused to vote.

The Convention then took a recess till five o'clock.

EVENING SESSION. A formal vote was taken for a candidate for President, as follows, Fillmore 179, Law 24, Raynor 14, McLean 13.—Fillmore was declared nominated amidst great applause.

The Convention then proceeded to vote for a candidate for Vice President, with the following result: Andrew Jackson Donelson 181, Gardner 12, Raynor 8, Walker 8, Stewart [illegible].—Both nominations were then declared unanimous amidst loud applause.

Mr. Donelson returned thanks for the honor done him.

The best feeling and much enthusiasm prevailed after the nominations.

After the transaction of some other business, the Convention adjourned *sine die*.

Congressional.

WASHINGTON, Feb. [illegible]

Mr. Mason submitted a resolution, requesting the President, if not incompatible with the public interests, to communicate to the Senate all correspondence which has taken place between this Government and Great Britain regarding the enlistment of soldiers in the United States to serve in the British army, accompanied by such evidence and documents as the President may deem proper to show the connection of the agents or officers of the British Government with this violation of our laws and national rights.

Mr. Mason said the statement of Lord Clarendon in the British parliament, in regard to this matter, had recently been received in the English papers, and unless the American side of the argument is likewise made known, the community would be misled. It was therefore important that all the correspondence should at once be made public.

Mr. James expressed concurrence in the opinion of the Senator from Virginia.

Mr. Cass, who appeared in his seat for the first time since his recent severe illness, apparently perfectly recovered, not only heartily agreed with every word which Mr. Mason had uttered, but would go farther than he had, and would not hesitate to say that he never saw a statement so utterly contrary to fact as that of Lord Clarendon. He (Cass) showed, from the evidence in the trial of British Agents for violation of our neutrality laws, that the complicity of the British government could not be successfully denied. Mr. Cass considered that paying the passage of men to Canada and then enlisting them was a palpable violation of our neutrality laws.

Mr. Yulee enquired of Mr. Mason, whether it was true, as stated in the speech of Lord Clarendon, that the British government had offered to submit the settlement of the controversy with regard to the interpretation of the Clayton Bulwer treaty, to the arbitration of a friendly power.

Mr. Mason. If any such offer has been made officially I am ignorant of it.

Mr. Crittenden thought the British government had made all the apology that could be expected of it when it acknowledged its error, declared it unintentional, and promised that it should not again occur. He understood that as soon as the British government was apprised of the dissatisfaction of this government on account of the recruiting operations, the work was promptly desisted from. This was the highest satisfaction for such an injury, and no further apology ought to be demanded.

Mr. Mason said that whatever might have been the statement made across the water, no statement has been offered by the British government. He thought that when the correspondence called for should be laid before the Senate, Mr. Crittenden would find that he had made a leap before he had gained the stile.

Mr. Hamlin inquired whether Mr. Buchanan had not expressed himself satisfied with what Lord Clarendon had said in explanations.

Mr. Mason replied that he was not familiar with the whole correspondence, but if Mr. Buchanan ever expressed himself satisfied with the course of the British government, it was [illegible] under a misapprehension of the facts.

Mr. Crittenden rejoined, that it might ap-

He understood that as soon as the British government was apprised of the dissatisfaction of this government on account of the recruiting operations, the work was promptly desisted from. This was the highest satisfaction for such an injury, and no farther apology ought to be demanded.

Mr. Mason said, that whatever might have been the statement made across the water, no atonement has been offered by the British government. He thought that when the correspondence called for should be laid before the Senate, Mr. Crittenden would find that he had made a leap before he had gained the stile.

Mr. Hamlin inquired whether Mr. Buchanan had not expressed himself satisfied with what Lord Clarendon had said in explanation.

Mr. Mason replied that he was not familiar with the whole correspondence, but if Mr. Buchanan ever expressed himself satisfied with the course of the British government, it was done under a misapprehension of the facts.

Mr. Crittenden rejoined, that it might appear that Mr. Buchanan had made a leap in the dark.

The debate was continued by Messrs. Toucey, Rusk, and James, when Mr. Mason's resolution was adopted.

On motion, the consideration of the President's special Kansas Message was resumed.

Mr. Jones of Tenn. said he had listened with pleasure to the discussion as to whether Mr. Crampton should be recalled or not, and what measures should be taken to heal the wounded dignity of this country, and he would say that he would rather enter into a conflict with England or any three of the Great Powers of Europe, than to have a conflict among ourselves. Such a conflict might come in consequence of disturbances in Kansas. Many of the objectionable portions of Mr. Wilson's speech had been modified in print, and the most objectionable remarks of all had been entirely omitted. He was glad to see this, for it gave him reason to hope that the Senator from Massachusetts was not altogether beyond redemption. All the trouble in Kansas had grown out of the morbid and unpatriotic opposition to what gentlemen are pleased to call the extension of slavery.—Attempts had been made to prove that these disturbances were all the result of the repeal of the Missouri Compromise. He denied the truth of the statement. The slavery agitation would have continued, had the Compromise never been touched. As much as he was opposed to the Compromise, he should be willing to restore it, if gentlemen would cease to agitate the slavery question.

Mr. Jones proceeded to show that the Emigrant aid societies were established for the express purpose of first making Kansas a free State, and secondly, making a money speculation out of this benevolent enterprise.

Mr. Jones said, alluding to Senators whom he opposed, "The devil takes care of his own, and this accounts for their prosperity."—(Laughter.)

Mr. Hale, if it had not been for the Kansas bill, I should not now be here, I owe my election to the President, who must be the only devil who brought me to Congress. (Renewed laughter.)

Mr. Jones, if that is true, the Senator is the most ungrateful wretch that ever lived, as he continually attacks the President. (Laughter, and applause in the galleries.)

The Senate after further debate adopted Mr. Mason's resolution.

Mr. Jones of Tenn. spoke in condemnation of anti-slavery men, in reply to Mr. Wilson's speech on Shannon. Adjourned.

HOUSE. On motion of Mr. Thorington, the military committee was instructed to enquire into the expediency of establishing a military academy and school of practice in the valley of the Mississippi.

Mr. Der made an ineffectual effort to introduce a resolution, instructing the committee on Naval affairs, to enquire into the expediency of constructing fifteen additional steam frigates.—No quorum. Adjourned.

DOCTOR HOOFLAND'S
CELEBRATED
GERMAN BITTERS,

PREPARED BY
Dr C M JACKSON, Philad'a, Pa,
WILL EFFECTUALLY CURE

Liver Complaint, Dyspepsia, Jaundice,

Chronic or Nervous Debility, Diseases of the Kidneys and all diseases arising from a disordered Liver or Stomach,

Such as Constipation, Inward Piles, Fulness, or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choaking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c.

Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

The proprietor in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is no new and untried article but one that has stood the test of a ten years trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals, in all parts of the country, is immense. The following from our own State is respectfully submitted [illegible] who may still doubt [illegible] my Memo[illegible] or Practical Receipt Book for Farmers and [illegible], to be had gratis of all the Agents [illegible] German Bitters.

[illegible] office and manufactory, 120 Arch st, Philadelphia, Pa.

TESTIMONY FROM MAINE.

Capt Daniel Abbott, Brooklin, Maine, July 16, 1853 says, "I was taken sick one year ago last April, upon my passage from Havana to Charleston S C. At the latter place I took medicine and procured a physician but for ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o clock, at 11 o clock I took the first dose, and another at 6 o clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night and the next day found me a well man.—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it.

Jos B Hall & Co, Presque Isle, Aroostook Co, Maine, April 24, 1854 say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr Clark to be a man of veracity and have no doubt of the truth of his story."

Messrs. Jos. B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 18 years has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle.* She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years.—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co, Me.

You should bear in mind that these Bitters are *entirely vegetable,* thereby possessing advantages over most of the preparations recommended for similar diseases.

For sale by respectable dealers and storekeepers generally—and by J. S. Ingraham, Bangor, W. B. Morrell, Dexter, E B Fisce, Lincoln.

Certain and Permanent.

Merciless Quacks,

if not from premature graves. In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing

SAFE CURES.

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOSITION. It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice, as plain directions for use accompany the medicine. Reader, if you have any of the above complaints, do not neglect them,

Delays are Dangerous.

Truth must and will prevail.

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity.*—And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found, it acting both as a *Cure and Preventive* of any of the above ailments.

HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Sarsaparilla,

—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all scaly Eruptions of the Skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States, and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed, whether in town, country, hospital, or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects. Numerous letters have been received from the most distinguished physicians in the country and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends. Numerous preparations of Sarsaparilla and Buchu, and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt.

These medicines require considerable care in the preparation, and the employment of different menstrua in successive operation to take up the extractive matters, and, in consequence, are most frequently improperly made, and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations. It is, therefore, of the highest consideration and importance to the public and to the faculty, that there should be standard preparations of uniform strength and possessing the most advantages. To effect this and obviate the evil alluded to, I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu, and to discover the most eligible form for their exhibition. The experiments have resulted most favorably, and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made. Two tablespoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one bottle fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made.

—PRICES—

Certificates of cures and recommendations from distinguished professors and physicians will accompany each preparation. Prepared and sold by H. T. HELMBOLD, *Practical and Analytical Chemist,* No. 263 Chesnut-st, near the Girard House, Philadelphia.

LET US REASON TOGETHER.

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases.

Asthma	Dropsy	Inward Weakness

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

It has stood the test of more than seven years, and in offering it to the public we are not ignorant of its operation. We know it to be the greatest ALLEVIATOR of PAIN and SUFFERING in those afflicted with any kind of Humor, and really one of the greatest blessings to mankind ever before the public, as we can show by the evidence of living witnesses.

Read the following—it speaks for itself.

LAWRENCE, June 12, 1854

We, the undersigned citizens of Lawrence having used the Vegetable Allied Ointment prepared by Dr. E. D. Hayes, of this city, and being personally acquainted with the Doctor feel pleasure in adding our testimony to all the Doctor claims for his medicine. Unlike other remedies in the market, this preparation performs its office speedily and with certainty. The Ointment we have used with the most happy result after vainly seeking relief by the free use of Sarsaparillas, Salves, ect., ect.

Our experience fully justifies us in confidently recommending it as *the* article, and the ONLY one known to us as performing all it claims.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.

PREPARED ONLY BY
REV WALTER CLARKE,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing.

☞ Sold in trial bottles, 25 cents each, large bottles, each containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Bowdoinham, Maine.

FEBRUARY, 17th, 1853.

To Rev Walter Clark. Dear Sir—The bottle of Cough Mixture which I bought of you at Topsham had the desired effect on my wife. She had been afflicted with a cough for two years—that bottle entirely removed it.

From Rev Jesse Hoyt, Lewiston Falls.

BRO. CLARKE—Every bottle of the Universal Cough Mixture which you left with me, is sold—and I have several applications for more. As far as heard from all have been perfectly satisfied with the medicine. One man who had a cough of long standing, attended with tightness of the chest and shortness of breath, so that he was laid aside from business, purchased one large bottle, and before he had taken one third of it he was perfectly cured, and has had no cough since. He says it is the best medicine in the world, and cannot be recommended too highly.

JESSE HAYES.

From Mr Fletcher Chick, agent for North Dixmont, Maine.

DEAR SIR—A number of the most extraordinary cures have been effected by your Universal Cough Mixture in this place. Several who had coughs of a year's standing and others who have been doctored six months without receiving any benefit, have been speedily cured by the Universal Cough Mixture.

From Mrs. Hubbard, Thorndike, Me.

FEBRUARY 1, 1854.

To Rev. Walter Clark. Dear Sir—This certifies that I have used one bottle of your Universal Cough Mixture for a distressing cough and soreness in the lungs. I had previously taken several kinds of medicine, and had been under the care of several physicians, without obtaining the least relief, happily your Universal Cough Mixture was recommended to me. I procured a bottle which I began to take according to directions on the label, by which in a few days I was entirely cured.

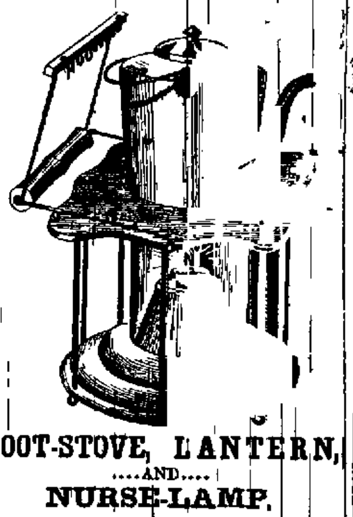
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,
....AND....
NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable invention, is now prepared to offer them to the public.

As a FOOT STOVE, it answers an excellent purpose, as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an oil, alcohol, or fluid lamp, the flame of which is protected from every external object.

As a LANTERN, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c, it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conjectured by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves.

KENNEDY'S
MEDICAL DISCOVERY.

The Greatest of the Age!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR* from the worst Scrofula down to a common pimple. He has tried it in over eleven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, suiting some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache one bottle will always cure it. It gives great relief in catarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19 1853.

This is to certify that H H HAY, Druggist, Portland is the duly AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

THIS valuable Medicine is composed principally of Herbs, by whose stimulating and [illegible] properties it is when applied, instantaneously diffused through the whole system, allaying the most intense pain in a few minutes. You have only to try it, when you will be convinced that no preparation ever offered to the public for the relief of the afflicted, possesses in so high a degree its perfect Anodyne qualities. Its effect in [all] cases is prompt, powerful and effectual, without in the least endangering the system.

It penetrates the flesh to the bone, relaxing contracted muscular powers, restoring to [use] the joints and limbs, which have been for years of affliction almost entirely useless. It is, therefore, hailed by the suffering as the greatest blessing of the age, and no one would ever allow himself to be without this sovereign balm after he had once witnessed its magic influence over disease, and its potency in relieving pain however severe. The perfect consciousness of its unquestionable efficacy, by actual experiment makes [us] bold in asserting its transcendent virtues. By referring to the numerous certificates in the hands of agents, which were given voluntarily and cheerfully, from a sense of gratitude and justice, by persons of the first respectability, (and their statements admit of no doubt,) you will find it [has no] equal, in the whole world for a speedy, certain and lasting cure of Rheumatism. It [will also] cure Neuralgia, Pains in the Side and [illegible], Swellings, numbness, Weakness of Joints, &c. Also Dyspepsia, and all Nervous [affections] proceeding from the stomach. Also Dr. [Barber's] *Corn Resolvent,* a sure remedy for Corns, [illegible], &c, &c. Sold by Dyott & Sons; M. B. [illegible]; Burr & Perry, Boston, at all dealers of Patent Medicines.

For sale by SAMUEL E. PERKINS, Kenduskeag Bridge, Bangor.

SINGER'S
SEWING MACHINES!

THESE machines have long [held] the highest reputation in the United States. THE FIRST PRIZE—A GOLD MEDAL—has been awarded to them at the great Exhibition at the Palace of Industry in Paris, and they [now] have the World's verdict of superiority.

Great improvements have just been added so that they run without noise, with [a] new [regul]ator, at double the ordinary speed.

Twice as much Work can be done in a day. The greatest clothing manufacturing establishments in the country use these machines exclusively. They are adapted to perform every sort of work in the most superior style.

As there are very great numbers of [utt]erly worthless sewing machines of the [Grov]er & Blodgett, Avery, Wilson, Grover & Baker and other patents, which have been sold but cannot be used to any advantage, we hereby offer to receive all such machines, and also unimproved ones of our own manufacture *in exchange for our latest improved machines,* on liberal terms. The old machines thus obtained by us will be broken up and destroyed. For particulars apply by letter or personally at our New York Office.

N B Local Agents wanted to make sales of our improved Sewing Machines. To persons properly qualified for the business a rare opportunity for profitable and pleasant employment is offered.
